§ 95.31

(3) The Closed Area must be accorded supplemental protection during nonworking hours. During these hours, admittance to the area must be controlled by locked entrances and exits secured by either an approved built-in combination lock or an approved combination or key-operated padlock. However, doors secured from the inside with a panic bolt (for example, actuated by a panic bar), a dead bolt, a rigid wood or metal bar, or other means approved by the CSA, do not require additional locking devices.

(4) Open shelf or bin storage of classified matter in Closed Areas requires CSA approval. Only areas protected by an approved intrusion detection system

will qualify for approval.

§95.31 Protective personnel.

Whenever protective personnel are used to protect classified information they shall:

- (a) Possess an "L" access authorization (or CSA equivalent) if the licensee or other person possesses information classified Confidential National Security Information, Confidential Restricted Data or Secret National Security Information.
- (b) Possess a "Q" access authorization (or CSA equivalent) if the licensee or other person possesses Secret Restricted Data related to nuclear weapons design, manufacturing and vulnerability information; and certain particularly sensitive Naval nuclear Propulsion Program Information (e.g., fuel manufacturing technology) and the protective personnel require access as part of their regular duties.

§95.33 Security education.

All cleared employees must be provided with security training and briefings commensurate with their involvement with classified information. The facility may obtain defensive security, threat awareness, and other education and training information and material from their CSA or other sources.

(a) Facility Security Officer Training. Licensees and others are responsible for ensuring that the Facility Security Officer, and others performing security duties, complete security training deemed appropriate by the CSA. Training requirements must be based on the facility's involvement with classified information and may include a Facility Security Officer orientation course and, for Facility Security Officers at facilities with safeguarding capability, a Facility Security Officer Program Management Course. Training, if required, should be completed within 1 year of appointment to the position of Facility Security Officer.

- (b) Government-Provided Briefings. The CSA is responsible for providing initial security briefings to the Facility Security Officer, and for ensuring that other briefings required for special categories of information are provided.
- (c) Temporary Help Suppliers. A temporary help supplier, or other contractor who employs cleared individuals solely for dispatch elsewhere, is responsible for ensuring that required briefings are provided to their cleared personnel. The temporary help supplier or the using licensee or other facility may conduct these briefings.
- (d) Classified Information Nondisclosure Agreement (SF-312). The SF-312 is an agreement between the United States and an individual who is cleared for access to classified information. An employee issued an initial access authorization must, in accordance with the requirements of §25.23 of this chapter, execute an SF-312 before being granted access to classified information. The Facility Security Officer shall forward the executed SF-312 to the CSA for retention. If the employee refuses to execute the SF-312, the licensee or other facility shall deny the employee access to classified information and submit a report to the CSA. The SF-312 must be signed and dated by the employee and witnessed. The employee's and witness' signatures must bear the same date.
- (e) Initial Security Briefings. Before being granted access to classified information, an employee shall receive an initial security briefing that includes the following topics:
 - (1) A Threat Awareness Briefing.
 - (2) A Defensive Security Briefing.
